**GOING CONCERN:**

Bangladesh may have been spared the outbreak of the viral attack of covid-19 but our economy has already been hit by the damages wrought by it abroad. According to Bangladesh Trade and Tariff Commission, Various sectors of the economy are already facing problems because of disruptions in manufacturing industries caused by the disease abroad, particularly in China. Shortage of the supply of raw materials has reportedly threatened to close down operations in different industries in the manufacturing sector. Declining supply of goods through imports for consumers has also started to hit the market. It is apprehended that if the crisis prolongs the import-export transactions of the country may be squeezed adversely affecting production and consumption.

It is seen that the damages caused to the economies by corona virus in the countries that have been affected by it, particularly by China, has started spilling over into Bangladesh economy. So far, the situation resulting from decline in imports and exports is not grave and a crisis situation has not arisen. But if this situation continues further, resilience of Bangladesh economy will be severely tested.

Standard Insurance Ltd. (SIL) has taken and will take various measures to keep the company's going concern status:

- i) Company ensuring adequate safety and health measures for the employees, like social distancing and working from home.
- ii) For regular monitoring SIL has introduced and implemented contingency plans for liquidity and putting into controls;
- iii) Effective cost control measures are already in place to combat the unprecedented situation;

To reduce certain expenses which is required in normal business scenario but not 100% applicable during overall slowdown of macroeconomic and industry specific environment;
